## Mac Attack Team.

We are proud of our track record. On and off the East River.

Team work. Pulling together. Getting the job done. At the office for our clients. On the East River for our community.

We dip our golden paddles in admiration of the enthusiasm and commitment of Women Alike Abreast a River. They inspire all of us with their positive attitude towards a disease that can and must be beaten.

Our thanks to those with the entrepreneurial vision and organizational skills to pull together this extraordinary community fundraiser. It works wonders for our sense of team work. It works wonders for our entire community.
